Organ Donation Data Glossary	
Name	Definition
Designated Service Area (DSA) <a href="#">(1)</a>	The geographic area designated by the Centers for Medicare and Medicaid Services (CMS) that is served by one organ procurement organization (OPO), one or more transplant hospitals, and one or more donor hospitals.
Hospital's Organ Donors <a href="#">(97)</a>	Total Organ Donors for Nevada Donor Network for a specific referring organization
Organ Donor <a href="#">(2)</a>	Organ Donors in the Nevada Donor Network Designated Service Area
Intestine Transplanted <a href="#">(3)</a>	Intestines transplanted
Hospital's % of Organ Donors in Designated Service Area <a href="#">(5)</a>	Percentage of organ donors from hospital that make up Nevada Donor Network designated service area (DSA)
Ventilated Referral <a href="#">(54)</a>	Individuals who are ventilator dependent when referred to NDN.
Missed Organ Referral <a href="#">(7)</a>	Individuals who have sustained an irreversible neurological injury who are ventilator dependent and meeting organ donation clinical triggers who were not referred for organ evaluation but identified during Death Record Review Report
Potential Organ Donor <a href="#">(8)</a>	At any time from the beginning of the referral to the closure of the referral did this patient have potential to have an opportunity to donate at least one organ (changed 2016/6/8 from 'Individuals meeting clinical triggers for organ donation')
Eligible Death <a href="#">(9)</a>	A death of an individual aged <= 75 yrs, who is legally declared brain dead according to hospital policy independent of family decision regarding donation or availability of next-of-kin, independent of medical examiner or coroner involvement in the case, and independent of local acceptance criteria or transplant hospital practice
Missed Eligible Death <a href="#">(10)</a>	A death of an individual aged 75 years old or less, who is legally declared brain dead according to state or local law, has body weight of 5 kg or greater, has a BMI of 50kg/m2 or less and has at least one kidney liver heart or lung that is deemed to meet the eligible data definition as defined by OPTN and CMS independent of family decision regarding donation or availability of next-of-kin, independent of medical examiner or coroner involvement in the case, and independent of local acceptance criteria or transplant hospital practice, but were not referred to NDN

--

Organ Donation Data Glossary	
Name	Definition
Missed DCD Potential ( <a href="#">11</a> )	Individuals meeting DCD triggers, expiring within 2 hours from extubation with no contraindications for donation, but were not referred to NDN for organ evaluation.
Timely Ventilated Referral ( <a href="#">12</a> )	All referral calls made to NDN within 1 hour of meeting clinical triggers
Timely Vented Referral Rate ( <a href="#">13</a> )	All referral calls made to NDN within 1 hour of meeting clinical triggers, per total organ referrals
Organ Approach ( <a href="#">14</a> )	Any discussions where organ donation offers were made including Effective and Inappropriate Approaches
Effective Request ( <a href="#">16</a> )	A collaboration between the donor hospital and NDN that results in the donation request to the family using a tested and proven methodology.
Organ Approach Authorization Rate ( <a href="#">15</a> )	Any discussions where organ donation offers were made including Effective and Inappropriate Approaches, per total approaches
Effective Request Rate ( <a href="#">17</a> )	A collaboration between the donor hospital and NDN that results in the donation request to the family, per total Organ Approaches
Authorization for Organ Donation ( <a href="#">19</a> )	The affirmative response given to NDN for organ donation
Decline for Organ Donation ( <a href="#">20</a> )	The negative response given to NDN for organ donation
Eligible Conversion Rate ( <a href="#">21</a> )	A measure of the percentage of eligible deaths that become organ donors
Eligible Donor ( <a href="#">23</a> )	Individuals whose death met the Eligible Death definition
Non-Eligible Donor ( <a href="#">24</a> )	Individuals whose death does not meet the Eligible Death definition
Registered Organ Donor ( <a href="#">25</a> )	Individuals who documented their intent to become organ donors (Donor Designation)
Standard Criteria Donor (SCD) ( <a href="#">26</a> )	Individuals <60 years old that do not meet ECD or DCD criteria.
Expanded Criteria Donor (ECD) ( <a href="#">27</a> )	Individuals >61 or over 50 with two of the following: history of hypertension, terminal serum creatinine >1.5mg/dl or death from CVA
Donation after Circulatory Death (DCD) ( <a href="#">28</a> )	Organ recovery process that may occur following death by irreversible cessation of circulatory and respiratory functions. A DCD donor may also be called a non-heartbeating, asystolic, or donation after cardiac death donor.
Recovered Organ ( <a href="#">29</a> )	Any organ recovered
Organ Donated for Research ( <a href="#">30</a> )	The number of organs recovered and placed for research
Organ Discarded ( <a href="#">31</a> )	The number of organs discarded.

Ocular & Tissue Donation Data Glossary	
Name	Definition
Organs Transplanted per Donor (OTPD) ( <a href="#">32</a> )	The number of organs transplanted per organ donors
Lung Transplanted ( <a href="#">45</a> )	Lungs transplanted

Ocular & Tissue Donation Data Glossary	
Name	Definition
Heart Transplanted ( <a href="#">46</a> )	Hearts transplanted
Liver Transplanted ( <a href="#">47</a> )	Livers transplanted
Kidney Transplanted ( <a href="#">48</a> )	Kidneys transplanted
Pancreata Transplanted ( <a href="#">51</a> )	Pancreata transplanted
Intestine Transplanted ( <a href="#">3</a> )	Intestines transplanted
Transplanted Organ ( <a href="#">33</a> )	Any organ transplanted from any donor category
Tissue/Ocular Referrals ( <a href="#">34</a> )	The number of potential Tissue or Ocular donors referred to NDN.
Cardiac Death ( <a href="#">35</a> )	The number of individual deaths as reported from hospital each month on hospital death list
Ocular and Tissue Referral Made < 1 hour of Death ( <a href="#">36</a> )	The number of deaths referred within 1 hour of cardiac time of death
Ocular and Tissue Referral Compliance Rate ( <a href="#">37</a> )	Percentage based on the number of referrals to NDN per Cardiac Deaths
Ocular and Tissue Timely Referral Rate ( <a href="#">38</a> )	Percentage based on number of referrals made <1 hour of Death per total number of referrals to NDN
Ocular and Tissue Approach ( <a href="#">39</a> )	Total number of discussions where ocular and tissue donation were offered to the legal next of kin
Authorization for Ocular and Tissue Donation ( <a href="#">40</a> )	Total number of approaches where permission is obtained for ocular and tissue donation
Ocular and Tissue Registered Donor ( <a href="#">42</a> )	Individuals who became donors after signing up in a state donor registry (Donor Designation)
Ocular Donor ( <a href="#">43</a> )	The number of individuals who donated ocular tissue each month
Tissue Donor ( <a href="#">44</a> )	An individual who donated tissue.

Ventilated Referrals ( <a href="#">54</a> ) (27 records)						
MRN	Referred On	Death On	Unit\Unit Detail	Time. Org. Ref.	Registered	Organ Outcome
