OmniLife

OmniLife HEALTH

Purpose-Built for Complex Care
Encourage collaboration in complex environments.

Empower Care Teams
Increase productivity and reduce the impact of staffing shortages.

Create Structure
Simplify clinical workflows and standardize complex care pathways.

Optimize Performance and Outcomes
Drive process improvements and optimize billing.
State of the Industry

Communication | Productivity | Staffing

- 500+ phone calls, emails, and text messages per case
- 30+ individuals involved across an average of 7 departments and 3 external organizations
- Paper-checklists / no single source of truth
- Security risks resulting from limited to no HIPAA-compliance
- Ongoing staffing shortages and burnout
FlowHawk

- Billing and Reimbursement Optimization
- Quality and Process Improvement
- Staff productivity, collaboration, communication

Communication Data
- Case Activity
- Patient Data
- Logistics Data
## Best Practice Workflows for Organ Intake

Enterprise-Wide

TRANSPLANT

- Organ Intake & Recovery
- Patient Waitlist Management
- Patient Referral & Evaluation
- Living Donation
- Post-Transplant

ORGAN FAILURE CARE

- Nephrology (ESRD/CKD care)
- Hepatology/GI
- Cardiology
- Pulmonology

ONCOLOGY

- Bone Marrow Transplant
- Oncology Urology (Prostate Cancer)

Business case: Driving ROI for transplant centers

Guidry & East 2020 Audit Report on OmniLife Products and Services

1. Estimated from historic CMS billing data across 50+ transplant programs
3. Survey data from transplant admins collected by OmniLife, 2021-2022
4. Published NIH SBIR Study

Increase Organ Cost reimbursement
-‘Faculty Time’ reporting – avg +
$40k-$1.2m/year

Reduce Burden for Front-line staff
Reduced time on phone by
50%/case3

Mitigate risk and costly delays associated with ‘miscommunication’ (waivers, logistical errors, OR)
est $400k/year4
Clients

Academic Hospitals, Health Systems, Children's Hospitals, and Private/Group Practices
Implementation Timeline & Resources

### Implementation Timeline

**Week 1:** Discovery

**Week 2:** Optimizing Workflow

**Week 3:** Testing and Training

**Week 4:** Go-Live

### Implementation Resources

**Client**
- Executive Sponsor
- Program Manager
- Superusers

**OmniLife Health**
- Client Services Director
- Information Technology Lead
Professional Services
Enhance Platform Value / Increase Average Contract Size / Improve Client Experience

- Configuration Services
- Additional Workflows
- Data Analytics Services
- EHR Integration
- SSO Integration
- Additional User Training
- System Admin Services
OmniLife is a wonderful platform that allows for consistent communication between all members of our team.

– Heart/Lung Transplant Coordinator

The OmniLife app connects the entire team during each step of the transplant process ensuring minimal downtime. I highly recommend!

– Organ Preservationist

The OmniLife app allows communication to be streamlined amongst team members which cuts down on potential mistakes and keeps everyone updated on the case progression.

– Kidney/Liver Transplant Coordinator

OmniLife will speed up organ placement and recovery, improve organ care quality, all while improving the experience and quality of life for surgeons by reducing irrelevant updates and disruptive phone calls and alerts.

– Transplant Surgeon
