Performance Improvement: How to Handle MPSC Metrics for Transplant Programs

Overwhelmed by the MPSC metrics and how to make sure your center is doing well? Want to make sure your program stays in the green and isn't identified for the yellow-zone or review? This course will cover how to track your center's MPSC readiness for both pre- and post-transplant outcomes, as well as give you tools to improve your center's performance regardless of where you stand.

At the end of the webinar, participants should be able to:

- Demonstrate an understanding of your program's current performance in both pre- and post-transplant outcomes.
- Develop meaningful strategies to improve performance whether in green, yellow, or review MPSC zones.
